

# Short Code Services

Receive messages to Short Code

**Using SMS Teknik's Short code service, SMS can be received and forwarded to system or e-mail and our web tool - SMS Direct.**

A connection to a shared short code with keyword/prefix to control incoming messages is included. Only users with a Swedish mobile phone number can reach these services.

Incoming SMS on 71xxx short codes with prefix is no additional cost to the user, only the operators SMS rate.

Incoming SMS on 72xxx short codes with prefix can be charged with 1-500 SEK.

Short code services is also available for incoming MMS to short code 72xxx.

*Short Code Services is useful for collecting information for events, promotions, orders and lectures*
