

# SMS Direct

Incomming SMS to webinterface with many possibilities

**SMS can be received in our web tool - SMS Direct, including search, selection, - and printing functions to easily manage incoming SMS.**

Received SMS is presented well-arranged on our web portal or alternative forwarded to your server.

We offer short code services in Sweden for Premium SMS with payment through WyWallets systems on 72xxx number and for non charging SMS 71xxx number.

We can also assist in setting up your own short code and prefix on shared short codes in other countries than Sweden.

*SMS Direct provides a direct easy overview of all incoming messages via short code*

Following functions is found in SMS Direct:

- Receiving messages to inbox
- Possibility of automatic static SMS reply, max 160 characters
- Time stamp
- Search a Random incoming SMS among everyone within a certain period
- Charge 1-100 SEK/incoming SMS
- Print a list of all incoming messages to Excel

No installation is required and retransmission of communication is made directly to SMS Direct.

The tool simplifies the results at competitions, lectures, polls and other types of event where you want a quick result.

SMS Direct is a flexible service that can be combined with several other services.
